

Activating Your Course

In this tutorial, we will learn how to activate a D2L course. Begin at your "Course Home."

Edit Course

1. Once you are at your Course Home, click "Edit Course."

[Course Offering Information](#)

2. Once you have clicked "Edit Course", click "Course Offering Information."

A list of settings should appear. Locate the "Active" checkbox. If there is not a checkmark in this check box, your course is NOT activated. If your course is not activated, your students will not be able to see the course.

Force Locale: No

Active: Course is active

Sections: Course has sections

3. In order to activate this course, click the checkbox a checkmark should appear.

Save

4. Click "Save".

Now your course is activated, and your students can see the course.
