

# Matching Question

In this tutorial we will learn how to create a matching question.

## Step 1. General Setup

For a matching question we will have choices and matches

Create New: -- Question or Section -- GO

There are currently 0 questions in this section.

To add a question to this section, click the image icon to the right of the question type.

Question

- True or False Question (T/F)
- Multiple Choice Question (MC)
- Multi-Select Question (M-S)
- Long Answer Question (LA)
- Short Answer Question (SA)
- Multi-Short Answer Question (MSA)
- Fill in the Blanks Question (FIB)
- Matching Question (MAT)**
- Ordering Question (ORD)

1B. and click go.

1A. First, select the matching question type in the question library

Title: Acronyms

Points: 1

1D. You are required to specify the number of points.

1C. You have the option to enter a title but if you don't enter a title your question text will automatically be the title of your question.

We recommend you to enter a title if you have questions with similar question texts that way the title will help you to distinguish the question when you look at the question list.

Difficulty: 1

1E. You can enter a difficulty level, the difficulty level may be used when you randomize questions, when you randomize questions you can ensure that each student receives the same number of questions of that particular difficulty level.

\* Question Text: Basic Advanced

Match the following.

Please make sure you are not using different font sizes and types for different questions. Using different font types and sizes may distract your students.

1F. Next, you are required to enter the question text which is where you will enter the question.

Acceptable file formats for images are jpeg, gif, bmp, and png.

Image:

Description:

**1G.** The description box will allow the instructor to enter a description for the image. This way those who have a visual impairment will be able to get information about the image using screen reader software.

Associated Objectives:

Associated learning objectives will be covered in another tutorial.

## Step 2. Grading Choices

**2A.** You have three options to grade the question, these options are equally weighted, all or nothing, or right minus wrong.

Grading:  Equally weighted  All or nothing  Right minus wrong

1

**2B.** You can add a choice by clicking the add choice button.

BHSU

**2C.** Begin by typing the choice into each text box.

1

1	▼
1	
2	
3	

**2D.** Each text box has a number which can be paired with the matching boxes below by using the drop down arrows.

	Value	Correct Choice
	Black Hills State University	1 ▾
	South Dakota State University	2 ▾

Example: Enter match the following into the question text box. Then add a choice such as BHSU, SDSU, and SDSMT. For the matches section type Black Hills State University, South Dakota State University, and South Dakota School of Mines and Technology. Then make sure the correct choice for this match is set.

 [Expand question hint](#)

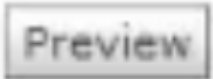

**2E.** You can add a question hint by clicking on the expansion arrow. You can use hints to guide your students during the exam. To make the hints visible you need to set it up in the properties tab of the quiz.

 [Expand question feedback](#)

**2G.** You can also add a question feedback by clicking on its expansion arrow. Feedback will not be visible to students unless you choose to show question answers in the submission view tab.

## Step 3. Ways to Save and Preview Work

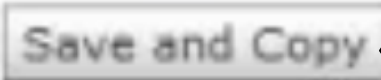

At the top and bottom of your page you can click the preview, save, save and copy, or save and new button.

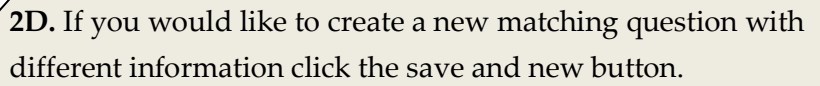

**3A.** The preview button can be used to see the question from the student and instructor's perspective for grading purposes.

**3B.** If you are planning to create a different type of question after this one, click the save button.

**3C.** If you would like to create another matching question with a similar question text click the save and copy button.

A rectangular button with a light gray background and a thin black border. The text "Save and New" is centered on the button in a dark gray, sans-serif font.A light beige callout box with a black border and a pointed left side. It contains text explaining the function of the "Save and New" button.

**2D.** If you would like to create a new matching question with different information click the save and new button.

In this tutorial we learned how to create matching questions.
